

### Food Service Advisory Committees

The Parent Advisory Council meets to discuss the National School Lunch and Breakfast programs and to address any questions parents may have regarding the cafeteria. Please contact the school principal if you would like to become a member or just attend a meeting.

### Wellness Committee

The Wellness Committee meets to review the district's Local Wellness Policy and address concerns related to the health and safety of our students. Please contact the district cafeteria secretary to get involved.

The Youth Advisory Committee is used to gather information about what menu items students like and to talk about any concerns they may have regarding the cafeteria. Students who could offer valuable input are chosen by a teacher or principal to be a part of this committee.
